

COMMUNITY IMPACT OF JUNIOR LEAGUES OF CALIFORNIA

For over 120 years, the Junior League has demonstrably impacted the landscape of modern society. Our distinctive membership experience fosters the development of thoughtful and experienced leaders among women. Through targeted training and project involvement, members gain the skills necessary to address critical societal issues. This collaborative approach cultivates pragmatic solutions that enhance the overall well-being of our communities.

By nurturing a pipeline of qualified leaders, the Junior League strengthens and expands the capacity of social service organizations and institutions. This increased capacity allows these entities to more effectively serve the underprivileged, including the sick, the impoverished, the abused, the undereducated, and the underrepresented. Our enduring legacy lies in its profound impact on communities and its lasting influence on the world stage.

California Junior Leagues Focus on

- Addressing the impacts of systemic poverty on individuals and families (Oakland-East Bay, Palo Alto Mid-Peninsula, San Jose, Sacramento)
- Engaging Women to Become Civic Leaders (Monterey, Pasadena)
- Improving Educational and Employment Outcomes for Foster Youth (Fresno, Los Angeles)
- Increasing Literacy Rates in Underserved Communities (Bakersfield)
- Training and Educating Disadvantaged Youths (San Joaquin)
- Addressing the basic needs of women and children (San Francisco, Riverside, San Diego)
- Increasing confidence and self-awareness among youth (Long Beach, Napa-Sonoma)
- Developing, supporting local nonprofit programming to meet community needs (Orange County)
- Improving the lives of at-risk young women (Santa Barbara)
